

Client of the Month ~ Pet Rock Films

Pet Rock Films LLC is located in Mystic, CT, but helps produce original creative work from all over the country. Services include pre-production, production and post-production of films, DVDs, educational CDs, books and other printed products.

The creative force behind Pet Rock Films (as well as MYS-TV Studios) is **Greg Gilmartin**. "Pet Rock Films developed around the need to distribute 'Mystic Coast Connection' (which airs continuously in more than 4,000 non-casino hotel rooms in southeastern CT, reaching more than 1.5 million guests a year) and my novel 'CREW'. Now, we have a team of professionals with the necessary skills that define the publishing world." Those skills involve branding & identity, graphic design, editing/proofreading, printing & publishing, script development, short special films and movies, commercials, and public relations and marketing.

Greg's past reads like a book, from radio & TV to writing for a variety of regional and national magazines with a special interest in fast cars and fast boats, to a stint at marketing for Ski Sundown. After being a Russian Linguist in the USAF, Greg studied Speech and Theater at Oneonta, then chased the radio microphone for a dozen years, with stops in Tampa, Springfield, Worcester and Hartford. Highlights include play by play for the Rowdies, roving news reporter and sports anchor in Massachusetts with daily visits to Fenway, Foxboro or Boston Garden. In 1977, he landed in Hartford joining the legendary Bob Steele and Arnold Dean on WTIC. A national sports talk show started in the 80s where he competed for the overnight audience of America with Larry King. He then moved to television both in front of and behind the camera. He spent several years doing commercials and corporate videos in Greater Hartford, as well as a 17 year gig with the Hartford Whalers as PA announcer. (not to mention the Blizzard and Wolf Pack too) Somewhere in the mix, he began writing his novel 'CREW' as well as a couple of other books which are still in the beginning phases. 'CREW' is a powerful product of his life's adventure as a creative writer and passion for sailing.

He now celebrates ten years as the owner of MYS-TV, where he continues his skills as creative storytelling with voice and video. You can go to his website at <http://www.mystv.com> and see several samples of his commercials. You can also go to YouTube.com and find many of his fun videos and sailing videos.

This entrepreneur and creative talent shares his experience and skills with others through Pet Rock Films, and continues to be a mentor to others who want to 'break into film' or get a book published. Hopefully, somewhere he will find the time to get those other novels onto paper and into print. We all are waiting with baited breath for that to happen!

I was fortunate to be able to help Greg with redesigning his website for Pet Rock. It is still in beta form, but you can see it at: <http://petrockfilmsllc.homestead.com> where you can also order a copy of his wonderful book or his 'Mystic Coast Connection' video.

Knockout Thriller!!

"We loved it...can't wait for your second novel... It would make a great movie!"
